NOTES ON PARASITES—47.

On the priority of *Cittotænia* Riehm, 1881, over *Ctenotænia* Railliet, 1891.

BY CH. WARDELL STILES AND ALBERT HASSALL.

[Reprinted from THE VETERINARY MAGAZINE, July, 1896, Vol. III., No. 7.]

Riehm (1881 A, p. 200) divided the tapeworms of rabbits and hares into the four species: *Tænia rhopalocephala*, *Dipylidium pectinatum*, *D. Leuckarti* and *Cittotænia latissima*, but later in the same year (1881 B) he rejected his new genus *Cittotænia*, placing the type and only species in *Dipylidium* (type *D. Caninum*).

Railliet (1893, p. 278), evidently overlooking Riehm's first paper, erected the genus *Ctenotænia* (type *Tænia marmotæ*) and included here: *Ct. Goezei* (= Riehm's *Cittotænia latissima*), *Ct. Leuckarti* and *Ct. pectinata*. Stiles (1895) and Stiles and Hassall (1896) also overlooked Riehm's first paper, and accepted Railliet's genus *Ctenotænia*.

Riehm's generic term *Cittotænia* must, however, be given priority over Railliet's name *Ctenotænia* as long as *Tænia marmotæ* and *Cittotænia latissima* (= *Tænia denticulata*) remain in the same genus, the latter form being accepted as type species.

The following parasites of rodents should be transferred to the genus *Cittotænia*: *Tænia denticulata* Rudolphi, 1804 (*Cittotænia latissima* Riehm, 1881); *Tænia marmotæ* Frölich, 1802; *Tænia pectinata* Goeze, 1782; *Dipylidium Leuckarti* Riehm, 1881; *Ctenotænia præcoquis* Stiles, 1895; *Ct. perplexa* Stiles, 1895; *Ct. variabilis* Stiles, 1896, with its varieties *imbricata* and *augusta*.

RAILLIET, 1893—*Traité de Zoologie médicale et agricole*, fasc. I. Paris.

RIEHM, 1881 A—*Untersuchungen an den Bandwürmern der Hasen und Kaninchen*; Zeitschr. f. d. ges. Naturwiss. Halle. Dritte Folge, VI. (Der ganzen Reihe, 54) p. 200.

— 1881 B—*Studien an Cestoden*; Zeitschr. f. d. ges. Naturwiss. Halle. Dritte Folge, VI. (Der ganzen Reihe, 54) pp. 545–610. Taf. V–VI.

STILES, 1895—Notes on Parasites: 38. Preliminary note to “A Revision of the Adult Leporine Cestodes”; the VET. MAG., II., p. 341–346.

— AND HASSALL, 1896—Notes on Parasites—41: *Ctenotænia denticulata* (Rudolphi, 1804). Stiles and Hassall, 1896; VET. MAG., III, p. 6–9.—Also in Centralbl. f. Bakt., Paras. u. Infektionskrankh., I. Abth., XIX, p. 70–72.
